PROFESSIONAL SUMMARY

Creative front-end developer with over 5 years of experience in designing and implementing engaging websites using React and WordPress. I've successfully boosted client sales by creating custom Shopify templates and integrating tailored solutions, while ensuring pixel-perfect designs and seamless user experiences. My collaborative approach and strong grasp of version control have enabled me to deliver high-quality projects on time, consistently exceeding client expectations.

EDUCATION

University of Calgary
Bachelor's, Computer Science   *GPA: 3.86*

PROFESSIONAL EXPERIENCE

Freelance   **Remote**
Front End Developer   *June 2018 - Present*
- Enhanced client satisfaction through effective web design by designing and developing responsive websites for diverse clients using a variety of frameworks and platforms, primarily React and WordPress.
- Designed and implemented scalable backend services to support dynamic web applications using Node.js and MongoDB, resulting in increased efficiency and reduced server response times.
- Enhanced user engagement by providing expert consultation services for user experience and front-end JavaScript as a consultant for diverse clients, leading to improved site navigation and usability.
- Improved project collaboration and version control efficiency by utilizing Git/Github for version control and collaboration with clients.
- Streamlined data interactions within web applications by consuming RESTful APIs, resulting in improved performance and user experience.

Sukoshi Mart   **Remote**
Shopify Web Developer   *October 2021 - August 2022*
- Boosted sales by creating user-friendly interfaces through the development of custom page functions and templates in Shopify using Shopify Liquid 2.0 and JavaScript.
- Achieved pixel-perfect accuracy in page designs through careful design implementation and testing, ensuring alignment with provided design wireframes.
- Reduced downtime significantly by quickly diagnosing and resolving bugs within tight deadlines through rigorous testing and efficient communication with stakeholders.
- Optimized the website by integrating various Shopify plugins and apps into existing pages and elements, significantly enhancing the customer experience.
- Improved code management and collaboration by implementing Git for version control on GitHub, ensuring project consistency and history tracking.
- Utilized strong time management skills to successfully meet deadlines through independent collaboration.
- Improved user experience by providing customized pricing options through the implementation of Ruby cart scripting for specific product variants.

The Brick   **Edmonton, AB, Canada**
Junior Front End Web Developer   *May 2019 - March 2020*
- Increased customer engagement by creating tailored page functions and templates in Shopify, leveraging Shopify Liquid 2.0 and JavaScript.
- Maintained pixel-perfect fidelity in web designs by meticulously aligning with provided design wireframes and implementing best practices in front-end development.
- Enhanced user experience by eliminating bugs through effective diagnosis and resolution under strict project timelines.
- Streamlined development processes by effectively managing version control with Git on Bitbucket, improving team collaboration and project tracking.
- Enhanced project quality through regular collaboration and constructive feedback within the development team.
